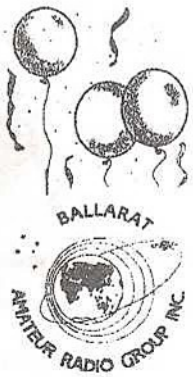
# THE PRESIDENT REPORTS



BOB VK3BNC

I guess that the best place to start this month would be to say a big "thank you" to Val for her talk on the "Eureka Flag" at our last meeting. It is good to see the talent that we have within our own ranks. (Anyone had trouble getting the Courier lately ?).

As the year draws to a close and we cast our minds back, we can reflect on another successful year in terms of friendships made and shared, both here, and I know for a lot, through the medium of our hobby, friendships around the world. For most of us we don't want to "set the world on fire" but through sharing our thoughts and experiences with others we just may make a small contribution to a better world.

Christmas is traditionally a time for family and friends, and I hope that each one of you can enjoy yourselves and at the same time spare a thought for those less fortunate.

For those going away, enjoy your holidays and drive safely.

On behalf of myself and your committee, might I wish one and all a Merry Christmas and a Happy New Year.

73 de Bob VK3BNC.

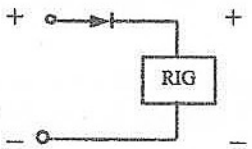
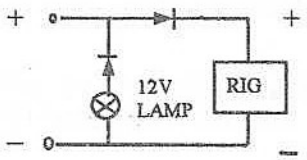
## A "LOSS FREE" IDIOT DIODE

The protection of solid-state rigs is always a problem when the equipment is removed from its normal operating position and power supply.
Traditionally the "idiot diode" prevents current flowing if the supply is connected the wrong way round, but it extracts a price, in form of an inevitable voltage drop when the equipment is in use.

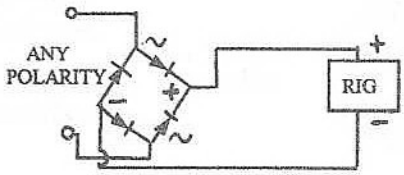
There are three common configurations of idiot diodes :



(a) Simplest

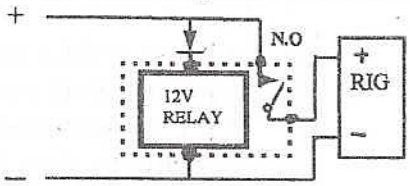


(b) Lamp lit if polarity is incorrect



(c) "Don't care" Polarity always outputs correctly.

However all three suffer an irretrievable forward voltage drop of at least 0.3V (if germanium diodes are used) and up to a possible 1.4 V in the case of (c).
Here is a fourth configuration which imposes NO forward drop :



The Relay will only power the rig if the polarity is correct.
D.S.E. sell a relay whose contacts can be paralleled to handle current up to 20A if required.
So bear this in mind. It's cheaper than severe service charges.

# TO COIN A PHRASE

AN EXERCISE IN PATIENCE BY GEORGE VK3DS

ACTUAL SIZE -2cm.

Recently I was made aware of an unusual feature of a small coin issued by Canada in 1944 and 1945 which has an interest to Radio Amateurs. Instead of the normal row of dots around it's edge it has a barely discernable string of Morse Code characters.
It is of 5 cent denomination, made of steel and chromium plated, and instead of the number 5 it has a large Roman "V" stylized as was the "V for Victory" during wartime. In the centre of the V is the "Torch of Freedom".
After about 2 hours of concentration using a strong magnifying glass I made out the words "work" and "willingly", but "WEWINATHETEWE" had me tricked. But then the "penny" dropped.

By changing the AT (- - –) to W(- – –) and TE (– -) to N (– -) it suddenly made sense and read "We Win When We Work Willingly"

Let me say that it was a very different world in 1944 ~

"I fully realize that I have not succeeded in answering all of your questions ..... indeed I feel that I have not answered any of them completely. The answers that I have given only serve to raise a whole new set of questions which will only lead to more problems, some of which we weren't even aware were problems."

" To sum it all up ... In some ways I feel that we are as confused as ever, but I believe that we are confused on a much higher level, and about much more important things than we have ever been confused about before."

# REPORTS.

(OR WHAT'S GOING ON !)

## NEWSLETTER

My thanks to the people who have sent in contributions for publication during the year. I hope I have done them justice, and I look forward to your continuing support next year.
I am always open to suggestions which may improve the Newsletter, so I welcome the input from members if you have some ideas.

## MEMBERSHIP

The BARG membership has increased to 111 since last month. We welcome a new member in **James Hambrook** (SWL) from Linton.

As the Festive Season draws closer Val and I wish all BARG members and their families the very best wishes for Christmas and the New Year, and we hope that the holiday period is a very enjoyable and safe one for you.

73 de Norm VK3LBA

## SCRAMBLE

Don't forget to get those logs in as soon as possible.
Please note that the scramble will finish on the 18th. of December for the Christmas recess and will re-commence on January the 8th.
A very Merry Xmas to all from Wendy and myself, and we look forward to your company again in 1995.

73 de Daryl VK3XDQ

## EDUCATION

The next examinations will be held on the 15th.December and I am sure that you join with me in wishing all candidates the very best of luck. Success would make a great gift for Christmas wouldn't it ?
The **Novice Classes** will commence on the 23rd. February 1995 and will run for 18 weeks. The course will once again be held at the Adult Education Centre in Urquhart St. Ballarat on Thursday nights from 7.30pm to 9.30pm.
Unfortunately the fees have had to be increased to $100.00 ($80.00 for concession) but the course is still very good value for money. Enrolments must be made at the Adult Education Centre which will be open for enrolments from the 18th. December.
I will take this opportunity to wish all members and their families and friends the very best of Good Wishes for a Happy and Safe Christmas and a Prosperous New Year.

73 Tom VK3DMK

## LIBRARY

The library has grown considerabley over the last few months and I have spent many hours sorting and assessing a virtual mountain of books and magazines. It is my intention to have Norm publish an updated inventory in the February Newsletter. Best wishes to all BARG members and their families and friends for a happy and safe Festive Season

Richard VK3JFL

**Thanks** to Ballarat Paging and Communications for donating the cost of this months **Newsletter Postage.**

## PART 3.

So you've picked up your new QSL cards from the printer, and now you're ready to QSL with the World.
Now comes the cost !!!. "How much ?" you ask. Well it is going to cost you a 'bob or two' one way or another.
First let us look at the facts of QSLing with a 'local' station. Your card has cost you from around 40c. to $1.00 a card ( some cost more). Now you have the cost of an envelope (20c.) and postage (45c). So if you have a 40c. card it will cost you $1.05 to acknowledge your QSO to a local by local mail. But hang on, if you do the right thing, and you really want to receive HIS card, you should enclose a stamped and self addressed envelope, thats another 45c. so now you're up for $1.50., but you stand a good chance of getting a card returned. A bit more expensive than you had planned on ? Well there is a beaut alternative.
Join the Wireless Institute of Australia and you can then use the QSL Bureau and have your cards exchanged free, receive a monthly magazine,and assist the WIA to look after the interests of those who participate in this great hobby.

Have you stopped to think about sending out QSL cards at $1.50 per card. How does this sound - If you are moderately active and send out 1100 cards over the next 2 or 3 years you will be up for $1.50 X 1100 = $1650 or the cost of a nice new Mobile Rig (Don't tell my wife about these costs or I will tell your wife !)

The cost of joining the W.I.A. at $80 per year ( $240 for your 3 years ) will allow you to send out your same 366 cards per year for 3 years for no further charge. That represents a saving of around $1400. Of course to send cards overseas will cost you much more if you send direct, so you can save a packet by using the WIA Bureau where possible.

WOW ! You've just worked a Bolivian station (CP) and he has asked you to QSL direct, and has given you his QSL information as a P.O. Box in the capital city of Bolivia (La Paz - ed.). This is your first CP contact and "Oh Boy you really want that card." Well it is going to cost you ! Let's look at the cost of sending your card to Bolivia. - QSL card (40c.) Envelopes - 2 off (40c.) Postage ($1.20) IRC's for return postage - 2 off ($3.20) . As you can see the cost of sending your one card direct to Bolivia has escalated to $5.20. The WIA Bureau looks better all the time , doesn't it.

What is an I.R.C. ?
An I.R.C. is an International Reply Coupon, and is exchangeable in any country of the Universal Postage Union for one or more postage stamps for minimum postage.
You may wish to include 2 Green Stamps for postage. (Green stamps are $1.00 American Bank Notes) These are available at banks from time to time but can be hard to obtain.

So now you have it - the choice is yours. When the bands are open your wallet can be also, but it is very difficult to put a price on the enjoyment and the sense of achievement that abounds when you participate in a QSO ( especially a DX one) with a fellow Amateur whose interests, commitment, endeavour and reward are similar to your own.

Good DXing & Best Wishes for the Festive Season
